

ZAINAB BIBI

BS Software Engineering Student | AI & ML Enthusiast
+92 305 558 6271 | zainabawan3316@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Top Academic Performer and motivated Software Engineering undergraduate at the University of Haripur (CGPA: 3.92/4.00). Hands-on experience in Python, Machine Learning, and Data Analytics. Proven ability to build end-to-end AI-powered systems and responsive web applications. Passionate about NLP, computer vision, and applying technology to solve real-world challenges.

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

ML & AI: Scikit-learn, NumPy, Pandas, NLP, CNN, Data Visualization, Gradio

Data & Analytics: Power BI, PostgreSQL, Excel

Tools & Platforms: Git, GitHub, VS Code, Google Colab, Jupyter Notebook

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability

WORK EXPERIENCE

Python Intern – Technik Nest (Remote)

Jun 2024 – Aug 2024

- Developed Python-based applications solving real-world business problems covering data handling, logic design, and debugging.
- Built automation scripts that reduced manual data processing tasks, improving team efficiency.
- Collaborated remotely with the engineering team, maintaining consistent deliverables and clear communication.

Frontend Intern – Prosensia (Remote)

Jun 2024 – Jul 2024

- Designed and developed 2+ responsive frontend interfaces using HTML, CSS, and JavaScript with pixel-accurate, cross-browser results.
- Partnered with the team to deliver cross-browser compatible UI components on schedule.

PROJECTS

Resume Scanner & ATS Analyzer | Python | NLP | Scikit-learn | PDF Processing

- Built an NLP-based system for automated resume parsing, keyword extraction, and skill mapping, reducing manual screening time.
- Developed an ATS scoring engine ranking resumes by job description compatibility; implemented robust PDF text extraction for diverse formats.

EcoVision – Smart Sustainability Analyzer | Python | Scikit-learn | CNN | Gradio

- Developed an AI-powered system using Random Forest classification to predict environmental product impact with multi-class prediction.
- Built an interactive Gradio UI enabling non-technical users to access the model without any coding knowledge.

Smart Plant Care & Watering Alert System | HTML | CSS | JavaScript | PHP | MySQL

- Built a full-stack web application supporting 200+ users and 300+ plant records with automated watering alerts and a plant care chatbot.
- Designed a normalized MySQL database schema for efficient data management.

EDUCATION

University of Haripur — BS Software Engineering

Oct 2023 – Present

CGPA: 3.92/4.00 | Top Academic Performer of the Batch

Govt. Degree College for Women, Hassan Abdal — Intermediate (Pre-Engineering)

2021 – 2023

ACHIEVEMENTS & AWARDS

- Awarded PEEF Merit Scholarship in recognition of outstanding academic performance.
- Recipient of Laptop under Prime Minister Laptop Scheme 2025, awarded to top-performing students nationally.
- Top Academic Performer of the Batch – University of Haripur, Software Engineering Department.

CERTIFICATIONS

- Data Analytics & Business Intelligence – DigiSkills.pk (2025).
- Generative AI Fellow – Silicon Valley Program – HEC Pakistan (2026).
